

Course 1 — Placement-Oriented Programming

A complete C & DSA foundation with placement-focused problem solving and projects

Module 1 | C Programming Fundamentals

- Introduction to Programming
- Variables & Data Types
- Input & Output
- Conditional Statements
- Loops
- Functions
- Arrays & Strings
- Pointers
- File Handling
- Memory Management (Stack, Heap, Dynamic Allocation)

Module 2 | Data Structures & Algorithms (DSA)

- Time & Space Complexity
- Arrays & Strings
- Linked Lists
- Stacks
- Queues
- Searching Algorithms
- Sorting Algorithms

Module 3 | Placement-Oriented Problem Solving (50 Programs)

- Logic Building
- Pattern Programs
- Number-Based Programs
- Array & String Problems
- Function-Based Problems
- Placement-Oriented Coding Questions

Module 4 | Placement-Oriented Projects (3 Projects)

- Smart Personal Finance Advisor
- Smart Quiz & Performance Analyzer
- AI Intelligent Programming Chatbot

COURSE HIGHLIGHTS

- ✓ Duration: 2 Months
- ✓ Live Sessions: 3 per week (Online)
- ✓ Resume Building & Interview Preparation
- ✓ 2 Mock Interviews
- ✓ Certificate of Course Completion

Course 2 — Full Stack Mobile App Development

Flutter & Node.js — design, build and deploy real mobile applications

Module 1 | Flutter Fundamentals

- Introduction to Flutter & Dart
- Flutter Project Structure
- Widgets (Stateless & Stateful)
- Navigation & Routing
- State Management
- Local Storage (Shared Preferences)

Module 2 | Backend Development with Node.js

- Introduction to Node.js & Express.js
- REST API Development
- Routing
- MySQL Database Connection
- CRUD Operations
- API Testing with Postman

Module 3 | Firebase & API Integration

- Firebase Project Setup
- Firebase Authentication
- REST API Integration
- JSON Parsing

Module 4 | App Deployment

- APK File Generation
- App Icons & Splash Screen
- Version Management
- Publishing Guidelines

Module 5 | Industry-Level Projects

- AI Expense Tracker
- E-Commerce Application
- Real-Time Chat & Messaging Application

COURSE HIGHLIGHTS

- ✓ Duration: 2 Months
- ✓ Live Sessions: 3 per week (Online)
- ✓ AI Feature Integration
- ✓ Resume Building & Interview Preparation
- ✓ 2 Mock Interviews
- ✓ Certificate of Course Completion
